INDIAN INSTITUTE OF INFORMATION TECHNOLOGY BHOPAL

# 1<sup>st</sup> दीक्षांत समारोह Convocation 2023

For Batches 2021 & 2022

25 February 2023 | 3:00 PM

## **VISION**

The institute is committed to get itself recognized as the forerunner in Information Technology related science and engineering. It aspires to establish a firm foundation for education and research under a high-quality faculty base with the objective to be the fountainhead of new ideas and innovations in technology and science. IIIT Bhopal strives to propel the nation on the growth-trajectory envisaging to achieve the aspired synergistic ends of the institution and society at large.

## **MISSION**

- To impart a high quality of innovation & research oriented education and to provide an environment to nurture the leaders of tomorrow.
- To enable the students formidably at the forefront of solving problems at national and global level within the context of larger humanistic concerns.
- To undertake collaborative projects which offer opportunities for long-term interaction with academia and industry.
- To project the spirit of involvement and inclusiveness, and showcasing the strength of mutual cooperation, thereby inspiring IIIT Bhopal to a glorious height.

# CONTENTS

1. Welcome Address by Prof. I/C Academic
2. Address by Nodal Officer, IIIT
3. Address by Vice Chancellor, RGPV, Bhopal
4. Institute Report by Mentor Director

## ADDRESS FROM NODAL OFFICER

**DR. MEENU CHAWLA**  
Professor  
MANIT, Bhopal

I am exhilarated to inform that the Indian Institute of Information Technology Bhopal is organizing its First Convocation on 25th February, 2023 for its first two batches of graduated students, 2017 and 2018 batch.

On behalf of IIIT Bhopal, as a Nodal head it gives me immense pleasure and honor to congratulate our recent batch of graduates. It is emphatically an extraordinary moment in their lives as they complete the formal education and step into the professional world as proud graduates of IIIT Bhopal.

Started in 2017, IIIT Bhopal although still in its nascent stage has experienced phenomenal growth in a short span of time under the aegis of MANIT Bhopal. The outstanding placement statistics points out how swiftly the institute has been emergent and made a great stride in the engineering education of India. On this note, I extend my gratification to mentor Director for supporting the institute right from the beginning as well as special appreciation to all the Administration, Faculty and Staff members for their excellent work in achieving the excellence and making this occasion possible.

Our main focus besides research and academics is to ensure that the students become socially conscious professionals who prove to be valuable assets for our country's development. I am quite confident that every new graduate of this institute has the potential for brilliance. Thank you for making IIIT Bhopal stronger, and we look forward to following their contributions with great interest. The future will be challenging but will also be full of new opportunities. My sincere advice to them is that make the most of such opportunities by utilizing the knowledge and skills which they learnt here to the fullest.

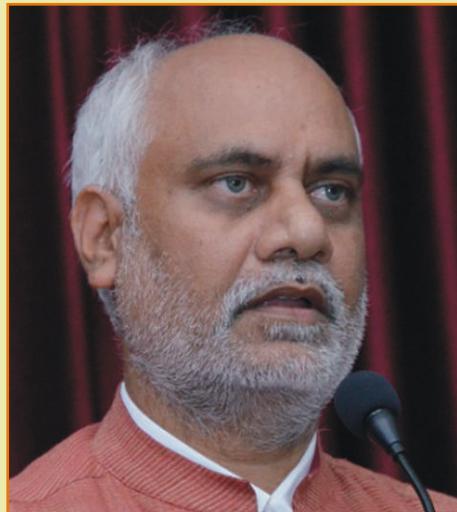

And finally, once again I would like to congratulate all the students graduating today and also special approbation to the award winners. Best wishes to all degree holders and their families for this great work and achievement. It is not the end of your journey, rather this is the beginning. You have a long way ahead, so I pray that GOD grant all of you success. May you grow from strength to strength and make your Faculty, Institute and country proud in the decades ahead.

**Prof. Meenu Chawla**

## ADDRESS FROM VICE CHANCELLOR, RGPV, BHOPAL

**PROF. SUNIL KUMAR**

Vice Chancellor  
RGPV, Bhopal

I am delighted to know that Indian Institute of Information Technology (IIIT), Bhopal is going to hold its 1st Convocation Ceremony on February 25, 2023 for the students graduated in the batch 2017-21 & 2018-22 and to mark the occasion a souvenir is also being published.

The Convocation ceremony is an important milestone in the evolutionary process of an institution and the student as well. It provides an opportunity to all the concerned for a sincere appraisal of the achievements as well as the efforts put in.

The graduating students who are being conferred degrees in this Convocation will step out in the new era of their lives and will be brand ambassadors of this budding institution.

However, they need to remember that learning is a continuous process which extends throughout one's life to meet the challenges of professional life.

I would like to congratulate all the members of the management, faculty and students for the successful conduction of the Convocation.

I wish that the Institution scales new heights of excellence with every Convocation.

**Prof. Sunil Kumar**

**PROF. RAMA. S. VERMA**

Mentor Director  
IIIT, Bhopal

It is my pleasure to welcome you all to the 1st Convocation of Indian Institute of Information Technology, Bhopal. I extend my heartfelt congratulations to all degree holders of 2017 – 2021 & 2018 – 2022 batches.

Indian Institute of Information Technology Bhopal (IIIT-Bhopal) is one of the Indian Institutes of Information Technology (P.P.P.) in the country, set up with the objective of providing the facilities for higher education, research and training in various fields of Information Technology. To address the challenges faced by the Indian I.T. industry and growth of the domestic I.T. market, the Ministry of Education (MoE), Government of India established Indian Institutes of Information Technology (I.I.I.T.), on a Not-for-profit Public Private Partnership (N-PPP) basis. The partners in setting up the I.I.I.T.s are Ministry of Education, Governments of the respective States where each I.I.I.T. will be established, and the industry. On the same line Indian Institute of Information Technology Bhopal (IIIT-Bhopal) has been established by the Ministry of Education, Government of India, Government of Madhya Pradesh and Rajiv Gandhi Proudyogiki Vishwavidyalaya.. At present, IIIT-Bhopal is operating from its temporary premises at Maulana Azad National Institute of Technology Bhopal (M.A.N.I.T.) until the time its new campus is made operational at Bhopal, Madhya Pradesh. Also, Maulana Azad National Institute of Technology Bhopal (M.A.N.I.T.) is the mentor Institute for Indian Institute of Information Technology Bhopal (IIIT-Bhopal). The institute aims at evolving strong research programmes in a plethora of areas where I.T. shall provide a common link with profound emphasis on development of technology and its application.

We are proud to confer 110 B. Tech. degrees for the students passed in 2021 and 138 B. Tech. degrees for the students passed in 2022 in 1st Convocation of Indian Institute of Information Technology, Bhopal (IIIT-B).

This being the first convocation of the institute, I would like to brief about its journey till now.

With a vision to be a leading technology institute of the nation, IIIT-B made a humble beginning in 2017 with an intake of 180 students each in three B. Tech. branches, namely Computer Science & Engineering, Electronics & Communication Engineering and Information Technology.

Just three years later in 2020, the intake was increased to 225 students per year, with 75 students in each branch.

The institute focused on developing a differential academic culture with many innovative ideas like fractal academics, project-based learning, industry engagements, focus on entrepreneurship, etc. From the beginning, the institute's unstated objective has been all round development of its students by nurturing a highly disciplined campus culture with free flowing ideas, along with the right balance of cultural and academic activities. The effort showed results, when the institute's first batch graduated in June 2021.

The classes of I.I.I.T. Bhopal are being conducted at the New Teaching Block of M.A.N.I.T. Bhopal. There are total 16 allocated rooms including Computer Lab, Electronics Lab, Sports Room, Training & Placement Room, Faculty Staff Room, Office, Student Activity and Eight Classrooms. The students of IIIT, Bhopal have an access to mentor institute M.A.N.I.T., Bhopal for availing the facilities of library, sports complex, medical dispensary internet etc.

The fully structured Training and Placement (T & P) cell has been established in IIIT, Bhopal. The T&P cell comprises training and placement officers, faculty coordinators, and student coordinators. Almost all the students of both the batches who were interested in job opportunities, got placed with an average package higher than parallel institutes, in-spite-of being new institute to which companies were not enthusiastic to visit for placements. Judging by the standard measures for placement namely, percentage of students placed, highest domestic salary offered, highest international salary offered and average salary offered, our students performed extremely well.

The total 68 number of companies took part in the campus selection process for batch 2017 – 2021 and companies like Amazon, Qualcomm, Commvault, Walmart, Nextuple, Truechip, Nagarro. I am happy to share that out of 90 eligible students from all three branches CSE, EC and IT, 81 numbers of students were successfully placed in the campus drive. The highest package was INR 26 LPA and the average package for the whole batch was INR 9.26 LPA. Similarly 85 companies took part in the campus selection process for batch 2018 – 2022 and Microsoft, Tekion, Airtel, Samsung R&D, Cognizant, Infosys, TCS, Persistent, Capgemini, CISCO, Mathworks, Nvidia, Cogopart, Jio platform, Synopsys were major companies participated other than above mentioned organizations in campus drive. And it is matter of proud for us that out of 115 eligible students from all three branches CSE, EC and IT, 101 numbers of students were successfully placed in the campus drive and the highest package was INR 58 LPA and the average package for the whole batch was INR 14.5 LPA.

In addition, many students have done their internships in renowned organizations such as IIT Kanpur, IIIT Allahabad, and DRDO. Institute has registered all students on Internshala, Coursera, and Superset where students may have trainings, courses, and regular assessments. Students have also benefitted from the Internship opportunities given by AICTE tulip portal, MeitY, and Github.

Several students from the graduating batches secured admissions in reputed institutes for their higher studies. Out of these, 10 students are pursuing Masters from abroad.

IIIT Bhopal although in its budding stage has organized one international conference and three workshops during this short period of time. IIIT Bhopal students also developed various apps and projects, which were appreciated by Government of India. One of the open source App developed by Mr. Shobhit Umrao for social safety was applauded by MHRD minister, Dr. Ramesh Pokhriyal Nishank on Gol twitter account. A team of students in collaboration with IIIM Lucknow has developed a cross platform application named Atmanirbhar Institutions.

Apart from academic excellence, the institute also focuses on entrepreneurship development and to setup start-ups. The Entrepreneurship Cell, IIIT Bhopal, also known as E-Cell, IIIT Bhopal, is the primary entrepreneurship promoting body of Indian Institute of Information Technology Bhopal, managed and run completely by T&P Cell of the institute and TPO of the Institute is running this Cell with the team of student coordinators. It organizes initiatives like the annual business plan competition Ideathon, Business plans. We are also planning for establishment of incubation Centre for IIIT Bhopal. Our overall vision is to make students understand challenges of an entrepreneur.

The Institute has also various student activity clubs like GDSC, Codame, EBSB, Kratingence, Pikazo, Inspire, GUC that are responsible for organizing various technical and cultural activities throughout the year. The institute organizes sports events like Sportslumenia and students of the institute also participated in inter IIIT sports meet, where they won medals also.

IIIT Bhopal is gaining popularity which is evident from the fact that JEE Mains cutoff rank has improved from 54000 in year 2017 to about 40000 in 2022.

Before I conclude, I would like to thank the various stakeholders whose constant effort and support have made all these achievements possible. My warmest thanks to Hon'ble Governor of Madhya Pradesh, Hon'ble Chief Minister of Madhya Pradesh, Hon'ble Technical Education Minister of Madhya Pradesh, Vice Chancellor, RGPV, Bhopal and all other State Government officials for their continuous support in all respect to the institute. My sincere thanks to Prof. N.S. Raghuvanshi, founder Mentor Director of IIIT Bhopal for bringing the institute to this level. My deepest gratitude to the Board members for their guidance and support in all matters. Lastly, my heartfelt thanks to the faculty, staff and students of the Institute for their dedicated effort towards maintaining high ethical and performance standards in all our activities.

Finally, dear graduating students of both the batches, on behalf of IIIT-Bhopal, I congratulate each one of you for achieving a major milestone in your life. As you progress, to excel professionally, choose the path that excites you, stimulates your intellectual passion, harnesses your talents and engages your mind in the most productive manner. Our good wishes shall always be with you. From today, you become alumni of this institute. The word 'alumni' carries a huge responsibility and an unconditional life-long association with the institute. Hence, continue to contribute to the institute in all possible ways, so that you can be proud of being a member of this institute for your entire life. With best wishes for your future endeavours, I hereby close my report.

**Prof. Rama. S. Verma**

## ADDRESS BY CHAIRPERSON

**K. SANJAY MURTHY**

Chairperson Board of Governors, IIIT, Bhopal  
& Secretary, Ministry of Education Govt. of India

### MESSAGE

The first Convocation is a milestone in the history of any institution. As the 1<sup>st</sup> & 2<sup>nd</sup> batch of graduates formally gets their degrees, it is a time of joy and achievement for them and, for most, a transition from student to employee; from a protected environment to the real world.

Graduation is amongst the most important milestones in students' academic lives. This is an occasion of celebration and triumph that marks the cessation of one phase of the educational journey and genesis of the next. In some parts of the world, this day is called 'Commencement Day', an absolutely apt name for the event, as it is indeed a moment to pause and start afresh a moment to look back at the memories made and to look ahead to the dreams designed.

My dear friends, learning is not confined to the classroom or the portals of this Institute; it is a life-long process. No case studies can be better than your own life's experiences. Today's Convocation does not mark the destination of your journey in learning; it is but a way-stop. So, as you step out into the world of unlimited challenges taxing you every moment, I am sure that by now you have developed the ability to handle them, reflect on your own values, and startle yourself with a plethora of competencies beyond your own estimation.

On this landmark occasion, I want to acknowledge the role and contribution of the Director, MANIT, Bhopal, Vice-Chancellor, RGPV, Bhopal, faculty and staff of IIIT Bhopal. They have really worked hard to make this day possible. I use this opportunity to thank my colleagues in the Board of Governors for their strong support and contribution to the development of the Institute.

I congratulate the graduating students, their parents and guardians on this happy occasion, and wish them the very best. We look forward to welcoming them back from time to time as alumni, potential faculty and recruiters, but most of all, as friends of IIIT Bhopal.

**(K. Sanjay Murthy)**

17th February, 2023

## PROFILE OF CHIEF GUEST

### PROF. ANIL SAHASRABUDHE

Chairman, National Educational Technology Forum (NETF)  
& Chairman, National Board of Accreditation (NBA)

## CONVOCATION ADDRESS BY CHIEF GUEST

**PROF. ANIL SAHASRABUDHE**

Chairman, National Educational Technology Forum (NETF)  
& Chairman, National Board of Accreditation (NBA)

Prof. R. S. Verma, Mentor Director IIIT Bhopal, Dr Sunil Kumar Gupta, Vice Chancellor of RGPV, Mr. Binod Doley, Registrar MANIT Bhopal, Dr Dheraj Kumar Agrawal, Professor in charge Examinations, esteemed members of the Senate, HoDs, members of the faculty, guests, persons from the media, graduating students, and their parents,

At the outset I would like to congratulate all the graduating students who were admitted in the institute in 2017 and 2018 and medal winners along with their proud parents on this auspicious occasion.

Dear graduates,

IIIT Bhopal which came into existence in 2017, in a P-P-P mode, for developing, disseminating and application of knowledge in the disciplines of Electronics and Communication Engineering, Computer Science Engineering and Information Technology is still in its infancy but the dedication of faculty and admission of bright students will take this institute a long way in the years to come. The curricula and the programs designed are relevant to industry and society creating employable and entrepreneurial graduates whereby it shall become an attractive destination for students and good faculty.

You, the graduating students are indeed lucky to be associated with an institute located in Bhopal, a city which is known for its diversity and culture, a true reflection of national integration. I am sure, the training and learnings you received here has prepared you so well that you can overcome any challenge you face in the future successfully. You have to be thankful to your teachers and parents who have shaped your destiny.

The national education policy 2020 has come at an appropriate time galvanizing, energising and empowering our entire education system mandating interdisciplinary and cross-disciplinary research for the betterment of mankind and society. It is rooted in our culture reflecting the ethos of India and provides autonomy to all institutes to transform. It provides opportunities to study higher education in any Indian language. The use of technology in education is emphasized for increasing gross enrollment ratio, skills and thereby enhance employability and entrepreneurship. Look at the period between 2020 to 2022, India has shown enormous resilience and the world has observed that despite pandemic, we continued academic activities, new admissions, conduct of classes, examinations, results announcement, by using online digital technology systems. India not only developed vaccines indigenously, vaccinated 120 crore plus Indians but provided vaccines to 130 plus nations. This reflects our ancient ethos and wisdom of Vasudhaiva Kutumbakam and Sarve Janaha Sukhinou Bhavantu.

This spirit of science and technology to help the society in times of crisis makes the institute a crucible for social change. The sprinkling of courses of Humanities and Social Sciences makes the education holistic. The NEP2020 has focussed on the multidisciplinary education with deep sense of creating value based human beings who will steer the nation with their able leadership in the future.

The technologies are changing rapidly. The future is faster than what we had all imagined. The rate of change is faster than ever before. While from industrial revolution in 18th century with steam engine and internal combustion engine, to mass production of goods in the 19th century to digital technology, computers, telephone, mobile, networking, internet in the 20th century and now in the 21st century Industry 4.0, artificial intelligence, machine learning, internet of things, robotics, drones, quantum computing, data

science, blockchain, Chatbot to Open AI-ChatGPT have revolutionised all sectors of human endeavour be it education, healthcare, agriculture, transportation, sources of energy, governance, economy, businesses and made the lives of people much easier but have also produced challenges to the living on the planet in terms of pollution, ecological imbalance, and climate change. Who would have imagined that one could travel to space, make genetic modification of species, cloning, availability of all services at the doorsteps at a click of a button albeit even guessing what is your intent or your mood on a given day etc. So the question we need to ask is how can we create affordable solutions for the masses using science and technology without degrading the environment? How values can be kept intact? How humanity will remain humane? How the last man in the last remotest village in the country enjoys the same benefits of science and technology, education, healthcare as the rest. It is these questions that young graduates have to ponder, discuss and find answers and solutions to these challenges and be a beacon for the rest of the world.

My dear graduates,

The setting up of National Research Foundation and National Educational Technology Forum will enhance quality of education and research. I am looking forward to infusing use of technology in education starting from pre-school to PG education. Tools like AVGC, AR/VR/XR/Metaverse, AI, Data Science are going to make big change in the manner in which empowerment is possible for all.

Starting from the vision of 5 Trillion economy on one side and Atmanirbhar Bharat on the other, set by the Government, NEP has come at the right time to catapult creating quality institutions, innovation culture and a highly skilled workforce. We have already proved that we are able to create indigenous 5G technology, AI based translation tool to translate contents in English to all Indian languages, high speed trains, excellent infrastructure, indigenous defence equipment production which should make you confident that you too can make it. All institutes and universities need to collaborate with each other, depending on strengths of respective institutes and solve the problems of the society and make India a developed nation. India is now heading the powerful G20 nations with its presidency. This is the time when we can show the world that we are not only second to none but shall help any country of the world in need of our support. Hence all of you have a great role to play.

Dear graduates, Today marks an important day in your lives and a significant milestone in your life's journey. You can recall that your mission for higher learning began here with great passion. But I know for sure that it will not end here. Technologies are changing rapidly. Be a life long learner. Keep yourself abreast with any new technology that is coming up in the future. Today MOOC permits you to learn any subject, anywhere, anytime from the best in the world.

Now you are alumni of this institute. Remain connected with your friends, teachers and parents. Today this is much more easily possible than in our times, thanks to Mobile connectivity, Email, Facebook, Twitter, Instagram, WhatsApp, Telegram and Koo etc. Your institute, friends, parents and teachers will give you the succour when you need them the most.

My best wishes to you all for fulfilling your life's mission.

Thank you.

Jai Hind.

Bharat Mata Ki Jai
